

VANESSA TELLEZ

FULL STACK DEVELOPER | CHARLOTTE, NC

Projects

Kansha Rewards

Feb. 2020 to Mar. 2020

A workplace recognition program to appreciate peers through rewards and personalized messages.

Tech Stack: JavaScript | React | Redux | SASS | NodeJS | Postgres

Front-end Repo: <https://github.com/Lambda-School-Labs/kansha-fe> | backend: /kansha-be

- Enhanced build-on project on a remote cross-functional team of 8 developers and a UX Designer over 8 weeks.
- Developed application with front end and back end skills to reach product vision goals.
- Implemented bulk-user upload capabilities with CSV files and reports on user recognition count.

Simmr

Feb. 2020

A professional platform for chefs to display public recipes with photos and ingredient lists.

Tech Stack: JavaScript | React | Redux | Material UI | NodeJS | Express

Backend Repo: <https://github.com/chefPassport/backend>

- Developed project on a remote team of 2 front-end developers, 2 backend developer, and 1 UI developer in 4 days.
- Built Web API in coordination with front-end team and backend developer partner to meet client requirements.
- Delivered an API using the REST architectural pattern, provided data persistence, incorporated authentication, and included testing.

Chef Portfolio

Jan. 2020

A professional platform for chefs to display public recipes with photos and ingredient lists.

Tech Stack: JavaScript | React | Redux | SASS | NodeJS | Express

Front-end Repo: <https://github.com/ft-bw-chef-portfolio/front-end>

- Built project on a remote team of 4 front-end developers, 1 backend developer, and 2 UI developers in 4 days.
- Developed state management for application and handled HTTP requests for all CRUD operations.
- Implemented client-side authentication in collaboration with a backend developer.

Employment
